qs
quick steps guide

heskaView+

**NOTE:** For access to the full user manual for this product, please visit www.heska.com/productmanuals.
Recommended browsers: Microsoft Internet Explorer 9 or higher • Google Chrome 16.0 or higher • Apple Safari 5.1 or higher • Mozilla Firefox 9.0 or higher

Logging In

1. Open browser and go to: https://www.heska.com/HeskaViewPlus.
2. Your user ID will be the same as Heska's previous site.
3. Click **LOGIN**.

Creating Search Filters

1. Click **NEW** and name folder.
2. Click **INSERT** to add criteria or multiple criteria.
3. Click **SAVE** when complete.
4. Click the filter folder icon to filter the most recent results to a folder.

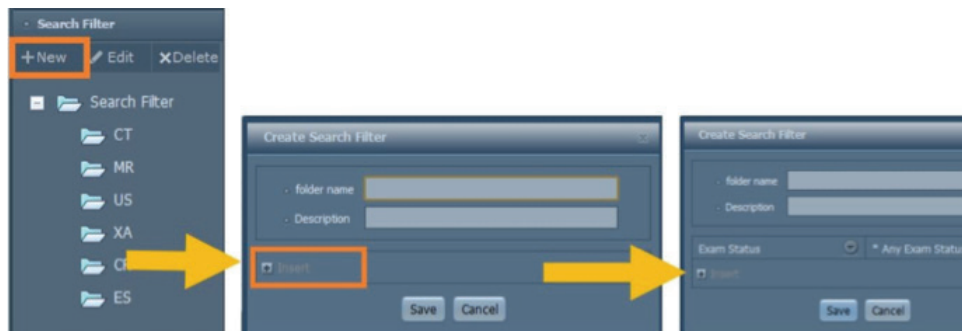

Exporting to computer system DICOM or JPEG

1. Right-click on the image to open the context menu.
2. Cursor down to the "Export to jpg" button and select DICOM or JPG file type.
3. Select a folder to saved the file to and rename as desired.
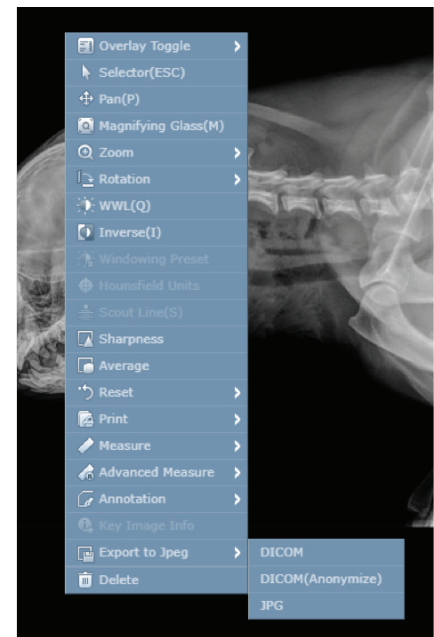

Launching the Content Uploader (File Uploader)

There are 2 ways to display the File Uploader from the ULite Worklist.

1. Click the **CONTENT UPLOADER** icon at the top right of the Worklist (will not include patient information, even if you have a patient selected). Patient/content info will need to be entered manually.
2. Right-click over a study. Click **CONTENT UPLOAD.** (Upload will include the patient information when opening CU page, assuming content for that patient is being uploaded.
3. A web page will load which allowing identification of which local content is to be upload to the server.
4. Type of content.
   • Specify if uploading DICOM, NON-DICOM, or STL content.
5. Select the content.
   • Click **SELECT FILE** to selectively choose file(s) from a specific folder.
   • Click **SELECT FOLDER** to upload all images from a selected local folder.
   • Select **RECURSIVE DIRECTORY**, if choosing "Select Folder" for the uploader to search all sub-folders of the selected folder and upload the contents of those sub-folder(s).
6. Modify the meta-data.
   • Update the meta-data fields if desired, including accession #, AE title, DOB, study date, gender, comment and study description.
   • Specify "ADD SERIES" if you would like the newly uploaded content to be added as a series to the selected exam.
   NOTE: this feature requires Internet Explorer, as it's associated with an active X component. You should have the ULite website added to your trusted sites, and within the IE trusted sites, the following should be set:
   • Active X Controls and Plug-ins: Initialize and script ActiveX controls not marked as safe for scripting should be set to "ENABLED".
   • Miscellaneous Section: Access data sources across domains should be enabled.

How to Find Studies
